

NATURALLY CLEAN. THE NEXT GENERATION.

Nature invented a clever way of absorbing moisture and transporting it from the roots to the leaves. Following that example we developed Cat's Best!

Our cat litter is completely based on plant-material and utilizes technologically refined active-woodfibres to absorb moisture and odours instantly and encapsulating them deep inside.

That's why Cat's Best can remain in the litter tray for up to 7 weeks before a complete replacement is due.

A neat solution: Absolutely natural and perfectly comfortable for both pet and owner.

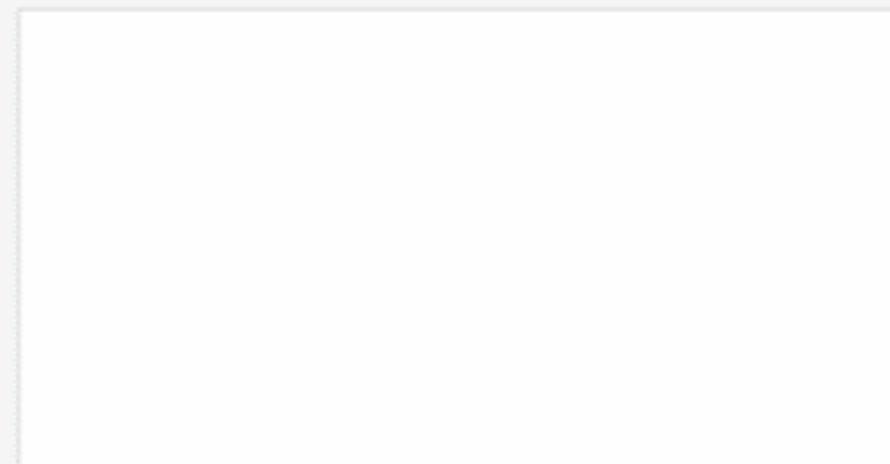

Cat's Best
The Power of Nature

CAT'S BEST – IN LINE WITH NATURE.

- Exclusively made of secondary raw wood materials. No trees are cut down for Cat's Best
- 100 % natural and without any chemical additives
- Completely biodegradable
- Entirely sustainable – Cat's Best is made of PEFC certified resources

**Natural material
cycle of regrowing
plant fibres**

THE FIRST CAT LITTER OF ITS KIND.

The innovative Cat Litter
that brings Nature and Science together.

Cat's Best
The Power of Nature

CAT'S BEST APPLIES THE CLEVER PRINCIPLE OF NATURE!

Original

Fights odours in a naturally active way

Cat's Best Original
CLUMPING & LOCK-IN

As a clumping litter Cat's Best Original utilizes the natural power of refined active-woodfibres that absorb moisture and odours up to seven times their own volume and effectively encapsulating them deep inside.

clumping

biodegradable

dust-free

long lasting

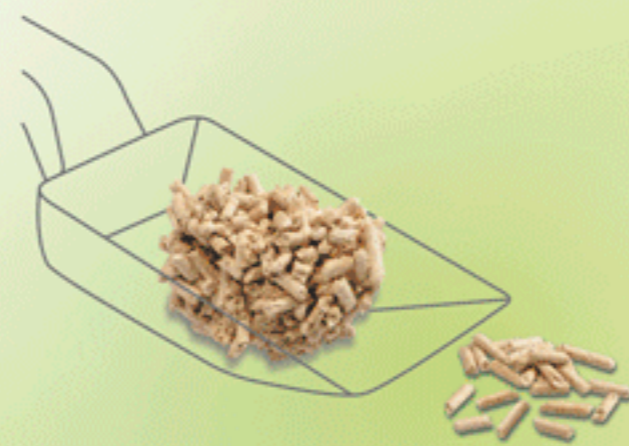

Smart Pellets

Stops scattering and tracking

Cat's Best Smart Pellets
SOFT CLUMPING & NON-STICK

Cat's Best Smart Pellets is the first cat litter that comes in the form of clumping mini pellets. They are specially shaped to prevent litter from sticking to your cat's fur and paws and thus significantly reduce the amount of litter scatter and tracking outside the litter box.

Sensitive

Provides naturally anti-bacterial hygiene

Cat's Best Sensitive
TIGHT CLUMPING & ANTI-BACTERIAL

The fine grain of Cat's Best Sensitive was particularly developed for the tender paws of sensitive cats. The green pearls supply the litter with a natural ingredient that insures anti-bacterial hygiene in the litter tray – in an absolutely natural way.

Litter handling & disposal

Filling
Fill the litter box with a layer of 5-7 cm Cat's Best.

Remove clumps
Remove clumps and faeces regularly. Cat's Best Special-Scoop is ideally suited for the easy removal of clumps.

Complete replacement
No need to clean the litter box every week anymore. A basic filling with Cat's Best litter lasts for up to 7 weeks.

Disposal
Remove clumps* and hard faeces and dispose of both in the rubbish bin, the organic waste bin or the compost heap.

*Please check your local waste disposal regulations.

Cat's Best Accessories

Cat's Best Anti-Tracking-Effect-Mat captures cat litter.

Cat's Best Litter-Scoop helps remove clumps without wasting litter.
